PREAMBLE

This contract is about the services which cover connection of your premises to our distribution system, and the energy supplied to the premises. These services are called "customer connection services".

In addition to this contract, we are required to comply with energy laws and other consumer laws in our dealings with you.

You also have a separate contract with your retailer dealing with the sale of energy to the premises.

More information about this contract and other matters is on our website www.australiangasnetworks.com.au.

1 THE PARTIES

This contract is between:

Australian Gas Networks Limited who provides you with customer connection services at the premises (in this contract referred to as "we", "our" or "us"); and

You, the customer to whom this contract applies (in this contract referred to as "you" or "your").

2 DEFINITIONS AND INTERPRETATION

- (a) Terms used in this contract have the same meanings as they have in the National Energy Retail Law and the National Energy Retail Rules ('the Rules'). However, for ease of reference, a simplified explanation of some terms is given at the end of this contract.
- (b) Where the simplified explanations in Schedule 1 differ from the definitions in the National Energy Retail Law and the Rules, the definitions in the National Energy Retail Law and the Rules prevail.

3 DO THESE TERMS AND CONDITIONS APPLY TO YOU?

3.1 These are our terms and conditions

This contract sets out the terms and conditions for the standard connection contract for customers under the National Energy Retail Law and the Rules.

3.2 Does this contract apply to you?

This contract applies to you if your premises are connected to our distribution system, and you do not have another customer connection contract with us for those premises.

3.3 What if I need a new connection?

If you require a new connection or an alteration to your existing connection we will provide you with a connection offer in accordance with either the National Electricity Rules (for an electricity connection) or the National Gas Rules (for a gas connection). That offer will contain terms and conditions relevant to the connection, which will form additional terms and conditions to this contract if you agree to the connection offer.

3.4 Electricity or gas

Standard connection contracts apply to electricity and gas, but some terms are expressed to apply only to one or the other. Our distribution system is a gas distribution system.

4 WHAT IS THE TERM OF THIS CONTRACT?

4.1 When does this contract start?

If your premises are connected to our distribution system, this contract starts on the date when you start to take supply of energy at those premises.

4.2 When does this contract end?

- (a) This contract ends:
 - (i) if your retailer notifies us that the supply of energy to the premises is to be disconnected (a 'termination notice')-subject to paragraph (b), on the date we disconnect the premises (even if you have vacated the premises earlier); or
 - (ii) if you start receiving supply of energy for the premises under a different customer connection contract-on the date that contract starts; or
 - (iii) if a different customer starts receiving supply of energy for the premises-on the date the connection contract of that customer starts;
 - (iv) if we both agree to a date to end the contract-on the date that is agreed; or
 - (v) 10 business days after we disconnect the premises under the Rules, if you have not within that period asked your retailer to reconnect the premises and met the requirements in the Rules for reconnection.
- (b) If your retailer gives us a termination notice but you do not give safe and unhindered access to your premises to conduct a final meter reading (where relevant), this contract will not end under paragraph (a)(i) until a final meter reading is carried out.
- (c) Rights and obligations accrued before the end of this contract continue despite the end of this contract.

5 SCOPE OF THIS CONTRACT

5.1 What is covered by this contract?

- (a) Under this contract we agree to provide customer connection services at the premises. We also agree to meet other obligations set out in this contract and to comply with the energy laws.
