

## Life Support

### Important information for households that rely on Gas Fuelled Life Support Equipment

#### How do I register my premise for Gas Fuelled Life Support Equipment?

Please call us on **1300 001 001** (Mon-Fri, 8am-5pm AEST) to register your details. Alternatively, you may register directly with your gas retailer.

When you contact us to register please have the following information handy:

- the address of the premises at which life support equipment is required, and the date from which it is required; and
- the Meter Installation Registration Number (MIRN) which can be found on your retail gas account (alternatively if you do not have a copy of the gas account we can use the meter number which can be found on the gas meter of the premise).

Once we have registered your premise for **Gas Fuelled Life Support Equipment** we will send you an information pack on life support, including a Medical Confirmation Form. We will also contact your retailer to advise them that you have registered the premises for **Gas Fuelled Life Support Equipment**.

You will be required to return to us the completed Medical Confirmation Form signed by a registered medical practitioner by the date stated in your letter.

We will send you reminder and deregistration notices to alert you that failure to provide the medical confirmation form within the required timeframe may result in your premise no longer being registered for **Gas Fuelled Life Support Equipment**.

#### Am I eligible?

If you or a member of your household rely on **gas** to supply any of the equipment below, you are eligible to register your premise for **Gas Fuelled Life Support Equipment**:

- an oxygen concentrator;
- an intermittent peritoneal dialysis machine;
- a kidney dialysis machine;
- a chronic positive airways pressure respirator;
- crigler najjar syndrome phototherapy equipment;
- a ventilator for life support; or
- any other equipment that a registered medical practitioner certifies as required for a person residing at the premises life support\*

**We endeavour to provide a constant, uninterrupted supply of gas, however there are instances when despite our best efforts you may experience unplanned interruptions to your gas supply.**

We are committed to delivering for our customers by providing a safe and reliable gas supply. However, we cannot guarantee continuous 24 hour gas to any premise include those registering with **Gas Fuelled Life Support Equipment**.

There can be unexpected incidents that are out of our control, which may affect your gas supply, for example, extreme weather, third party damage, water egress or equipment failure might disrupt your gas supply without warning.

From time to time your gas supply may also be interrupted to undertake upgrades or planned maintenance to our gas network. If we need to interrupt your gas supply to undertake planned maintenance, we'll give you at least four business days' written notice so you can make alternative arrangements.

Except in the case of an interruption, we will not arrange for the de-energisation of the premises from the date the life support equipment will be required at the premises.

\* Importantly, the definition of life support equipment includes a category for 'other', being any equipment that a medical practitioner considers is essential for their patient. 'Other' life support equipment may include, but not limited to, the followings:

- external heart pumps
- respirators (iron lung)
- suction pumps (respiratory or gastric)
- feeding pumps (kangaroo pump, or total parenteral nutrition)
- insulin pumps
- airbed vibrator
- hot water
- nebulizer, humidifiers or vaporizers
- apnoea monitors
- medically required heating and air conditioning
- medically required refrigeration
- powered wheelchair.

## Life Support

Important information for households that rely on Gas Fuelled Life Support Equipment

### What should I do, to plan for a gas interruptions?

Customers who rely on a continuous supply of gas for life support equipment are urged to have backup plans in place in case your gas supply is interrupted.

To assist your planning, you may find the following checklist useful:

- contact your doctor, hospital or life support equipment supplier to discuss appropriate options if there is no gas;
- have access to a telephone that doesn't require power to operate;
- ensure you have contact information including names, addresses & telephone numbers of:
  - your doctor;
  - the nearest hospital;
  - the local taxi or ride-sourcing service;
  - someone nearby who is willing to assist you;
  - Australian Gas Network's emergency telephone number **1800 GAS LEAK**;
  - your Retailers' telephone number;
  - emergency services, Triple Zero (000).
- Place a torch, with spare batteries, close to the life support equipment in case the electricity also fails;
- Have a battery-operated radio with spare batteries during a weather event, and listen to the radio to keep up with the latest information;
- If possible, organise with friends or family to use their gas supply (if they aren't affected);
- Go directly to the nearest hospital or call Triple Zero (000) if you feel your health is at risk.

Please note Gas Fuelled Life Support Equipment registration is only applicable for Australian Gas Networks in our South Australian and Queensland Gas Distribution Networks

### Do I need to keep my details up to date?

Yes.

If you have registered with us as having **Gas Fuelled Life Support Equipment** at your premises, it's important that you keep us informed of any changes to your contact details (such as telephone number or mobile phone), if you move premises or if the **Gas Fuelled Life Support Equipment** is no longer required.

Please call us on **1300 001 001** (Mon-Fri, 8am-5pm) if your details change.

### We may also contact you from time to time to ensure our information is correct.

If you decide to change retailer at your premises and a person residing at your premises continues to require life support equipment, you should advise the new retailer of the requirement for life support equipment.

### What do I do if the Life Support Equipment used at my premises does not rely on a gas supply?

Please contact your retailer to let them know that your life support equipment is not fuelled by gas and that it uses electricity only.
