Gas Pipeline Repairs Ongoing at Arthurs Seat

APA Group emergency crews are on site to repair a damaged gas main at Arthurs Seat near Dromana. The gas transmission main was damaged earlier today during third party excavation works.

Gas supplies to properties in the area remain uninterrupted but connected consumers in the affected area are required to restrict their use of gas-powered hot water and heating until repairs are complete.

Postcodes south of Arthurs Seat affected include:

- 3936
- 3938
- 3939
- 3940
- 3941
- 3942
- 3943
- 3944

Repairs are ongoing and Australian Gas Networks (AGN) will issue further updates when available.

APA Group manages and operates the Victorian gas transmission and distribution network for AGN.
